

**NEVADA DEPARTMENT OF CORRECTIONS  
ADMINISTRATIVE REGULATION  
454**

**ADVERSE WEATHER PROCEDURE**

**Supersedes:** AR 454 (Temporary, 09/11/09)

**Effective Date:** 11/13/09

**AUTHORITY:** NRS 209.131

**RESPONSIBILITY**

1. The Wardens/Facility Managers are responsible to establish a security plan to ensure safe and secure operations during adverse weather conditions with specifics unique to their institution/facilities (4-4224).
2. The Shift Supervisors are responsible to implement the security plan, when necessary.

**454.01 ADVERSE WEATHER PROCEDURE**

1. The adverse weather plans will detail at the minimum:
  - A. Internal movement details for staff and inmates
  - B. Additional perimeter security
  - C. Supplemental lighting
  - D. Staff re-call
2. If this plan is implemented, the Associate Warden will be notified.
3. The Shift Supervisor will monitor the conditions that require the implementation of the limited visibility plan
  - A. When conditions have abated, a count will be conducted.
  - B. Once count clears, a return to normal operations will be ordered.
4. Staff will be familiar with the location of emergency equipment, including alternative power supplies.

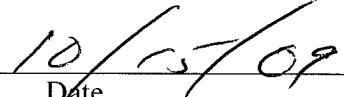

## **APPLICABILITY**

1. This AR requires an Operational Procedure (OP) for all institutions and facilities.
2. This AR requires an audit.
